

## ShutterSmart® PolyClad® Wood Shutters

---

### The Product

ShutterSMART is our Award Winning Poly Clad Wood shutter that combines maintenance free poly with the strength and look of a classic wood shutter. The poplar wood core is clad in a durable poly surface that has our Woodtex finish to deliver the soft look and feel of a painted wood shutter. This unique shutter will give you the edge to separate yourself from your competition and sell more.

### Your Customers Benefits

- Durable and Low Maintenance will not fade, crack, peel, chip, or warp
- Strong wood construction for large and wide door like panels
- Easy to Clean
- Insulating Thermocore louvers with wide 36" span with twist lock hooks that never pull out
- Solidcore louvers with staples
- Affordable
- Lifetime warranty on the finish

### Your Competitive Advantages

- A unique high quality shutter with polyclad wood construction allows you to "separate" yourself from your competitors products and sell more shutters.
- Wide 36" Panels for large clear views in windows. Your competitors cannot give wide panels on non wood products.
- Arch tops in all frame options, French door cut outs and all the custom options you would find only in high end wood shutters. Your competitors do not have this in their opening price point shutter.
- Made in the USA while your competitors shutters are all made in china.
- Exclusive Frames that will separate you from your competitors offering.
- All sizes under 4 ft wide come fully assembled for fast and easy installation to save you money.
- Eco friendly with simple packaging and minimal trash to throw away after the install
- The Lowest prices on poly shutters in the market.

### Shipped In 5\* Days on Our Truck Routes!

Most shutters are manufactured in 6-8 weeks and installed in 8-10 weeks. Our ShutterSmart Polyclad shutters are built in 5\* days and delivered on our weekly truck routes. For every one job your competitors sell and install in 8 weeks, you will have sold and installed four jobs. That's four times the sales, and four times the referrals!

## MiraMonte® Painted HardWood Shutters

---

### The Product

MiraMonte is our Painted hardwood shutter that's made in the USA with old world craftsmanship. We start out with hand selected woods that are run through our Kiln drying process. Each shutter is then custom build, hand sanded and painted using our proprietary 4 Coat Baked in Finish™ Technology to get a high quality and durable finish. We seal and prep the wood with 2 coats of primer, then apply 2 coats of finish paint that is baked on to give you one of the most durable paint finishes available.

### Your Customers Benefits

- Traditional Hardwood Shutters
- Durable 4 Coat Baked in Finish™ paint Technology
- Triple dowel joinery found in high quality furniture
- Specialty shapes including arch tops and French door cut outs
- Made in the USA confidence

### Your Competitive Advantages

- Made in the USA while your competitors shutters are all made in china.
- 4 Coat Baked in Finish™ paint Technology which your competitors do not have.
- Arch tops in all our custom frame options. Few competitors can offer this level of customization.
- Exclusive Frames that will separate you from your competitors offering.
- All sizes under 4 ft wide come fully assembled for fast and easy installation to save you money.
- Eco friendly with simple packaging and minimal trash to throw away after the install.
- The Lowest prices on wood shutters in the market.

### Shipped In 10\* Days On Our Truck Routes!

Most shutters are manufactured in 6-8 weeks and installed in 8-10 weeks. Our Miramonte Wood shutters are built in 10\* days and delivered on our weekly trucks. For every one job your competitors sell and install in 8 weeks, you will have sold and installed three jobs. That's three times the sales, and three times the referrals!
